\$2.00 per year in advance; 5c per copy

NOTES OF INTEREST OF BUSY KINSELLA

About 50 friends gathered at the church Tuesday night to bid goodbye to Mr. and Mrs. W. W. Kerns who are leaving soon for the States. Mr. and Mrs. Kerns were invited to the home of Mr. and Mrs. P. J. Wangness for dinner Tuesday evening, and later were taken to the church where the surprise was awaiting them. The evening started off with several old songs by all present, led by Mrs. Kerns, followed by a piano duet by Mrs. Wangness and Miss Ross, solo by Mrs. Joe Williams, solo Mr. Kerns, reading by Rev. Griffith, and some exciting contests closed the entertainment. Mr. Griffith then gave a very touching talk on behalf of those present who Mr. and Mrs. Kerns will be missed and how valuable they have been to the community, both in church and social work. "Grandma" Murray then presented Mrs. Kerns with a large bouquet of red and white carnations and Mr. Kerns with a beautiful silver flower basket as a token of love and esteem in which they are held in the community. Refreshments were then served after which the evening was brought to a close by singing "For they are jolly good fellows." The best wishes of the friends go with Mr. and Mrs. Kerns for their year's holiday or future home, which ever they decide to make it.

The chicken supper and concert last Friday night was well attended and the ladies realized \$65 from it. Mr. Selmer Hafso spent the week-end at the home of W. W. Kerns. Mr. F. Williams was a business visitor in Edmonton Thursday of last week. The Ladies' Aid had electric lights installed in the church last week and they were turned on for the first time on the occasion of the chicken supper. The Ladies' Aid wish to thank Mr. P. Williams and Mr. E. Jewell for their speedy work of installing the lights. Mr. Donald Cameron was the guest of his brother, Lloyd Cameron, on Sunday. Mrs. Taylor of Irma spent the week-end with her son, Geo. Taylor. Miss Florence Syson spent the week-end at the Shipley home, north-east of town. Mr. Watson and son "Yankee" and daughter Miss Edith, were shopping in the city a couple of days this week. Mr. E. Mark has rented the W. W. Kerns farm for a year and taking possession this week. Mr. and Mrs. Kerns are leaving in a few days for Portland, Ore., and Los Angeles, Cal., where they will spend the next year.

Anglican Church Notes

Service will be held in St. Mary's church on Sunday, October 25th, at 2.30 p.m. The W.A. wish to thank all who helped with the tea and sale of home cooking on Saturday. Also Mr. Fox-well for the use of his store.

Ladies' Aid Meet

The October meeting of the Irma Ladies' Aid was held at the home of Mrs. Arnold. Mrs. Frickelton, the president, conducted the meeting. Mrs. Reed led devotionals and 17 members answered the roll-call. All bazaar committees reported progress and the financial arrangements were made. Candy table, Mrs. Maguire and Mrs. Arnold; home cooking, Mrs. Hager and Mrs. Blakeley; afternoon tea, Mrs. Tripp, Miss Elliott and Mrs. Carter. Moved by Mrs. Locke, and seconded by Mrs. Knudson, that we hold the bazaar on Saturday, Nov. 7. The November meeting will be held at the home of Mrs. Osterhout. Hostesses, Mrs. Hill and Mrs. Elliott.

United Church Notes

The fall meeting of the Wainwright Presbytery was held at Holden on Thursday last, with a full attendance of ministers and some laymen from the local charge. Perhaps the most interesting and also important item of business considered was "The Evangelization of Canadian Life" program. The matter was introduced by a letter received from the Rev. C. N. Bateman, Rural Dean of the Wainwright Anglican parishes, inquiring as to ways and means co-operating in this united effort of the Protestant churches. The response of the Presbytery was hearty and unanimous and a joint committee is to work out plans in regard to our local churches. This is a Dominion-wide effort and many will doubtless have received information regarding it, both in the press and over the radio. At the major centres, such as Edmonton, great rally meetings of all the co-operating churches are being planned. It is not so easy to carry out the suggested programme in the small towns where there are only one resident minister, because it is the very nature of the movement for a joint witness to be made. However, it is hoped that satisfactory arrangements will be made in regard to Irma. In any case, there will be an opportunity of attending the meetings which will certainly be arranged in Wainwright. Further announcements will be made in due course. One thing gives cause for great satisfaction and that is the promotion of this movement has revealed a spirit of hearty goodwill existing between the different churches.

The official board of the Irma pastoral church met on Saturday afternoon last. The business was mostly of a routine nature, which revealed, however, that the different points were still "carrying on" the good work. Financial returns to date were as follows:

Alberta	\$56.61
Alma Mater	82.75
Crescent Hill and Roseberry	15.20
Irma	578.81
Total	\$800.47

Not less than a further \$650 will be required between now and the end of the year to balance accounts. The stewards at the different points will gladly receive contributions from those willing to help.

The Anniversary services last Sunday were well attended; the spirit of joyful praise prevailed, and the persuasive messages of the Rev. J. P. Berry were listened to with rapt attention. If even only a few left the services to be "doers of the word and not hearers only" the community will soon feel the impact of a more abundant life in our congregations.

The evening meeting on Monday opened with a short but excellent program; numbers being given by Mrs. Waite, Mr. Kerns, and Rev. R. W. Griffith, of Jarrold and Kinsella; also the choir, Mrs. Parke and Mrs. Caprani Winkel of Irma. Rev. J. P. Berry gave a delightful and impressive address, a stimulating Anniversary message. A social time and luncheon followed and the Anniversary celebrations fittingly closed in an atmosphere of good fellowship, which gives promise of bearing much fruit in the days to come.

Services for next Sunday: Albert, 11 a.m.; Alma Mater, 3 p.m.; Irma at 7.30 p.m.

Minutes of Monthly Meeting Kinsella Municipal District

Meeting held in Kinsella on Monday, Oct. 12, 1936.
Full Council present.
Cr. Lison that minutes be passed as read. C.U.

Cr. Overbo that statement of receipts and expenditures be passed. C.U.

Cr. Zelinski that the small lots in the cemetery be \$2.50 each and the big lots be \$10 each. C.U.

The matter of the increase of pension for J. Whitford was discussed. Moved by Cr. Bowden that the increase be recommended if Mr. Whitford returns to his home and helps to support his family. C.U.

Owing to the fact that the Community Press has ceased to function it was moved by Cr. Albrecht that those who were previously receiving the Press be sent the Viking News, arrangements having been made with the publisher of the News for representatives on the C. P. Railway line; this arrangement to be in force until the termination of the present contract, viz. April, 1937. C.U.

Cr. Zelinski that sec'y write all those who still owe for seed grain informing them that the Council wish for payment within the next ten days, and at the expiration of the ten days the sec'y to personally interview those who have not paid by that date, to find out what disposition has been made of the grain. C.U.

The following correspondence was read and tabled for the action of the sec'y: Dept. re W. Miller; Dept. re Farm unemployment relief plan; John Whitford re pension; G. Grant, re Michael; Letter from Dep. re collection.

Council meeting was held in Saltau school with Mrs. Hetherington, Phae-sey, Ramsey, Hills, Dew and Curry present. Reeve Phae-sey in the chair.

Minutes of Aug. 8 meeting were read and confirmed on motion of Cr. Dew.

Monthly statement for Sept. was read and signed by the Reeve. Hospital notices for the month were read.

Cr. Dew carried that Cr. Ramsey be Deputy Reeve for ensuing 6 months. Relief for October discussed and arranged for where necessary.

Council agreed to advance rent for Mrs. Harris sufficient to pay for repairs to the roof of her house.

Mrs. Haakon Emsland was present to ask for increase in mothers' allowance, but no action was taken. Jno. Thomas requested Council to accept \$16 and release seizure on grain. Council agreed. Geo. Matern asked that \$50 be accepted in his case, which was also agreed to.

Geo. Pollard requested Council to reduce seizure by amount of account of Dr. Maynes in order that he could pay the cash. Cr. Ramsey carried that seizure be not released, but that cheque be issued to Dr. Maynes on Pollard's account, for \$10.

W. G. Slee was present and asked that Cr. Dew be indebtedness be carried over to next year in order that he might retain his grain for next year's seed. Council did not agree.

Council resolved itself into a committee to investigate or hear an appeal by Mrs. McInroy against the amount of damages claimed by Wm. Wright against a steer of his which had been impounded. After prolonged discussion the matter was settled out of court by the parties concerned. G. H. Rustad was present and asked Council to give him further time to make payment of taxes on N. W. 20-49-7-4, alleging that he had some cattle to sell. Council agreed to give him some further time, he to pay what he can before the next meeting and to attend same. J. H. McRoberts correspondence was read. Considered satisfactory and no action taken.

A letter was read from the British Settlers Association, sec'y to reply giving requested recommendation. Ward Inspector Emmott reported his investigation of weeds on N.W. 4-49-7-4, and Sec. 8-48-7-4, and also that he had hired Wm. Wright to destroy weeds on Hudson's Bay land, Sec. 8-49-4-9, for the amount of \$5.00. Secretary to send account to H.B. Co.

Cr. Dew carried that by-law No. 10, being a by-law to authorize the sale of N.W. 10-47-7-4 to Mrs. Ellen J. Wilson, pass its first reading. Councilor Curry carried that by-law No. 10 pass its second reading.

Cr. Hetherington carried that Cr. Curry and Dew be delegates to the annual municipal convention. A letter was read from the Dept. of Immigration re R. Keuschnig. Cr. Dew carried that Council agreed and sec'y advise Dept.

Bruce Wascherl requested that Council give him roadwork to pay for it. Cr. Ramsey carried that no action be taken.

Report was made by sec'y re Seed Grain collections. It was carried that the Reeve and Deputy be a committee to look after collections and to investigate several cases and that their expenses be paid.

Cr. Hills reported a proposition by Jno. W. Jackson and request that the Council delay taking title to his land. It was carried that council delay for a reasonable time.

Application was made for Old Age Pension for Jno. Barrs. Cr. Hills carried that full pension be recommended.

Albert Schol District requested that they be paid \$100 extra on next quarter of Requisitioning when Cr. Hills carried that request be granted.

Emergency relief supplied to G. R. Fielding was approved on motion of Cr. Dew. \$5 for October.

A letter was read from Supt. of Child Welfare re difference in accounts. Sec'y to reply re Amber case.

Cr. Ramsey carried that timesheets be passed and paid. Account received from Dr. Kaye of Myrnam for services to family of Chas. Matters was refused, finally not considered indigent.

Cr. Dew carried that accounts be paid.

Cr. Hetherington carried the adjournment, next meeting to be at 10 a.m., on Nov. 14th next.

Wedding Bells

PENDLETON-KNUDSON

Mr. Merlyn Winston Pendleton, son of Mr. and Mrs. Fay Pendleton of Lougheed district, was united in marriage to Miss Helen Sophia Knudson, daughter of Mr. and Mrs. M. Knudson of Irma district, at the home of Mr. and Mrs. Knudson on October 15, by Rev. Ivar Saugen. Miss Aletha Knudson and Miss Iva Byler were bridesmaids and Mr. Conrad Ingvaldson best man. A lovely wedding dinner was served after the ceremony. Some relatives and friends enjoyed a merry evening with the bride and groom.

GREEN-LARSON

Mr. Andre Victor Green was united in marriage to Miss Lesa Joanna Larson at the Lutheran church, October 15th, by Rev. Ivar Saugen. Miss Henriette Green was bridesmaid and Mr. Louis Anderson best man. Mr. Blake Green and a few friends accompanied the young couple.

SPORTS

The word should be spelled Shamateur, and with emphasis on that shich part. Take a run down to Memphis and have a peep at the lineup on the ladies basketball team. Behold names that are very familiar to Edmonton fans, for they have been prancing about on that arena floor under the flags of several states. The quintuplets were born at the same time in one province. These basketball "quints" deserve fame evidently because they seem to have been born in five states. Oh no, the names "Sonny" Dunlap, Nora Cain, Alberta Williams, the Langerman twins, are not duplicates. Memphis has just "adopted" these children and intend to play them this year. This appears to be about the biggest coup in assembling amateur home talent. Surely they cannot get away with this. We'll see.

Saturday morn saw the departure of Murray Murdoch for the hockey wars. For the next three weeks, the training on Winnipeg ice will call for two hours daily of this sort of program: for the first half-hour, skate and play around; then an hour of intensive hockey practice, followed by another half-hour of skating leisurely. This, with careful attention to diet, soon produces muscle and wind which has brought about the term, "Iron Man of Hockey."

Boys who have done a long stretch of leg work on the bicycle after the sun went to bed, agree with Torchy Peden in saying that "the brain gets fogged long before the legs tire." Much like driving an auto when half asleep, the muscles do their stuff without being told from headquarters. Torchy maintains that in the six-day grind, brains are more important than legs, keeping one eye on yourself and another one peeled for the opponent. Peden ought to know.

The hockey school that Patrick conducts each year in Winnipeg, is a sort of kindergarten. If the kids can do their stuff, they graduate into a higher grade where real work starts. The class this year saw 11 new men selected for the Amateur "Rovers" in New York League, retaining but three of the former players. Those who make good in the amateur ranks graduate to the "Ramblers" of Philadelphia, the "farm" team of the Rangers, where definite salaries are paid. The scheme looks attractive. Canadian boys are handed a nice "pie" to eat.

Winter is "just around the corner" and curling clubs are booking the talkfest to elect skips and line up the strong arms. Well, are we all set to go at Viking?

To Establish Credit Houses

(By T. B. Windross)

Edmonton, Alta., Oct. 20.—The past week has been a busy one in the absence of Premier Aberhart from the capital and some important things have happened.

Tuesday Hon. W. A. Falow, minister of public works, announced that the mechanical branch of his department is to be reorganized immediately. He said orders had been issued through H. P. Keith, deputy minister, for this reorganization so that the changes may become effective by 1st of November.

Mr. Falow said investigation had shown that there was inefficiency both in the mechanical branch and the inspection division of the labor branch. The full scope of the changes to be made are not yet apparent, but among them, resignation of chief engineer W. Little has been received, the minister stated.

Social Credit circles were disturbed Wednesday by reports from the south of the province that J. Hansen, M.L.A. for Taber, had been repudiated by the group in that constituency. It was said Mr. Hansen had announced he could no longer stand by the platform on which he had been elected and the action of the group executive had followed.

Premier Aberhart, while in the south spoke at Taber and later attended a meeting of the executive to discuss the matter. The premier later refused to make any statement until he had time to go over all the correspondence in connection with the matter. This will mean the second member of the party to leave, S.A.G. Barnes, M.L.A. of Edmonton, being the first.

The price of milk to Edmonton consumers was advanced one cent this week, and the price of cream was advanced slightly more.

Preparations for the civic elections in the capital are well under way and candidates are being selected by various groups. A full slate has been selected by the Citizens' League and at least one independent entry is in sight. The League's slate includes five aldermanic candidates headed by ex-Mayor J. M. Douglas as candidate for mayor. Other bodies are choosing their slates.

It was announced by Lucien Maynard, minister in charge of the prosperity certificate plan of the government that the redemption of the certificates this month was more satisfactory to the government than last month, fewer of them are being redeemed, which means the people have more confidence in them and are keeping them in circulation instead of redeeming them. No definite figures are yet available.

Making provision for 700 rural school districts in the south-eastern part of the province to be administered by nine divisional boards, the new Alberta Schools act was brought into operation in that part of the province for the first time this week. The act will be extended to other parts of the province gradually.

The divisions set out in the current issue of the Alberta Gazette are as follows: Berry Creek, St. Mary's River, Foremost, Cypress, Tilley East, Taber, Lethbridge, Acadia, and Sullivan Lake.

Alberta's new Credit House Act, passed at the recent special session of the legislature, is now in effect, according to a proclamation in the Alberta Gazette. It became effective on October 15. The government may now proceed with the establishment of credit houses in various constituencies that are ready for the move. It is the intention to open 12 of these houses in ridings north of Red Deer as soon as possible, it was announced.

Police in Edmonton have been conducting a drive against gambling in the last week and to date over 140 arrests have been made in connection with raids of several houses where it was alleged games were carried on. One or two "clubs" have been among the number the police raided.

New Uses For Old Products

The agricultural depression which has contracted the farmers' pocket books in Western Canada almost to the vanishing point in the past five or six years may be attributed to two main causes—a drought cycle and an undisposable surplus stock of wheat of great proportions, the inheritance of the bountiful harvest of 1928, followed by a fair average crop the succeeding year.

The drought was a visitation of Nature itself, over which mankind could have little or no control, and if this had been the sole cause of an attenuated agricultural bank account the effects of the depression would not have been nearly so severe in Western Canada as they have been, for during the era of gloom the drought area shifted its local somewhat each year though, it is also true, that there are some areas which have sustained the full impact for the entire period.

Over the entire depression period, however, many areas which have experienced drought have reaped some harvests, varying widely in degree, and had good prices for wheat prevailed, many farmers over large tracts would have reaped sufficient returns to carry them through without aid or with comparatively little assistance.

Unfortunately however, this was not the case and the average comparatively low price of farm products and particularly wheat, at times far below the cost of production, was as much a factor in creating conditions which have necessitated debt adjustment on a wide scale as was the lack of moisture and its resultant duststorms and scourge of insect pests.

Dry periods undoubtedly will come again and little can be done to circumvent their ill effects in loss of production and yields beyond perhaps a small measure of conservation, but the lesson of the six year period will have been lost unless some consideration is given to the necessity and wisdom of devising some measures to obviate, or at least reduce, the hazards of a repetition of prices below the cost of production.

There are several directions in which concentration on this problem might well be directed, apart from the erstwhile popular proposal to curtail production. There is the matter, for instance, of efforts to create consumer demand in existing markets for improved and more tasty products of the grain fields, to which reference has previously been made in these columns, and serious consideration might well be given to the possibilities of converting products of the field to industrial uses in the domestic market.

Henry Ford demonstrated that much might be done to make agricultural products available to industry when his experiments revealed that by-products of the soy bean make excellent material for construction of certain automobile parts and accessories, and along similar lines, experimentation in the conversion of grains into alcohol for industrial use and on a commercially feasible basis should be pushed with vigor in the laboratories.

So far the conversion of grain into industrial alcohol has not proved a commercial success, but a fractional advance in the price of gasoline or a reduction of a few cents in the cost of production of alcohol from such source would place it in the field of a competitive fuel with gasoline, a commodity which is used in large quantities by the farmers themselves as well as other consumers in Western Canada.

That greater use of alcohol as a fuel is inevitable in the not far distant future is the conclusion of the "Pennsylvania Farmer", which, in a recent issue had the following to say on the subject:

"The farmer has a double interest in liquid fuels. He is now a leading consumer; he may some day be an important producer. Alcohol made from farm crops can be mixed with gasoline to make a fuel which will run a combustion engine. Since the supply of petroleum cannot last forever a wider use of alcohol as a fuel is inevitable. It is being hastened by a score of foreign countries by legislation requiring, by taxation or otherwise, a mixture of alcohol with gasoline.

"Without such government intervention the blending does not occur, because gallon for gallon, gasoline is cheaper and better than alcohol. Under present conditions the effect of this legislation is to subsidize the producer of alcohol at the expense of the consumer of fuel. When producer and consumer is the same fellow it is doubtful if he wants this subsidy.

"In our country the farmer consumes a fourth of the gasoline used. If the price were raised four or five cents a gallon, the extra cost would cut the profits from corn, sugar cane, potatoes, etc., that went into alcohol, while the farmer who grew no alcohol-producing crops would be dealt with unfairly.

"Until gasoline prices advance materially it would appear that hopes for a wider use of alcohol as fuel lie in research rather than in legislation. When alcohol can be made cheaper or better than gasoline, no law will be needed to promote its use, and until then any such law is of questionable value to farmers."

Easy To Define

A young man in college was applying pressure for more money from home.

"I cannot understand why you call yourself a kind father," he wrote his dad, "when you have not sent me a cheque for three weeks. What kind of kindness do you call that?"

"That's the unmitigated kindness," wrote the father in his next letter.

Judge Was Obliging

Justice will wait in district court at Hastings, Nebraska, until Attorney F. L. Carrio's false teeth are adjusted. Counsel for a plaintiff in a damage suit, Carrio came into court armed with a dentist's statement that his loose bridgework impeded elocution. A sympathetic judge continued the case to the next term.

Locusts are trapped in ditches in Argentina, dried and ground into powder for fertilizer.

English walnuts cannot be grown to maturity in England, due to the short growing season.

Your Success is Assured with
PURITY FLOUR
Best for all your Baking

Extracting Precious Metals

A New Science In The Mining World To Assist Operators

"Mineralography," a new science in the mining world designed to assist mining operators in their work of extracting precious metals, was described and demonstrated to delegates of the British Columbia Division of the Canadian Institute of Mining and Metallurgy meeting at Vancouver.

In a darkened room pictures of hiding places of particles of gold among base minerals were shown, magnified many times, while Dr. M. H. Haycock, of the Dominion department of mines, and Dr. H. V. Warren, of the University of British Columbia, stood in the background and described the new science.

Specially constructed instruments were used to polish ore specimens to the finest surface possible and these are magnified many times by powerful glasses for scientific study.

In this way, the two doctors said, the new science has already become of great assistance to the mining industry and promises to become still more valuable in determining the best treatment for gold extraction and mineral separation generally.

SELECTED RECIPES

ALMOND MERINGUE CAKE

- $\frac{1}{2}$ cup butter
- $\frac{1}{2}$ cups powdered sugar
- 4 eggs
- $\frac{1}{2}$ cup flour
- $\frac{1}{2}$ cup cornstarch
- 4 teaspoons Magic Baking Powder
- $\frac{1}{2}$ cup milk
- 1 teaspoon almond extract
- $\frac{1}{2}$ cup almonds blanched and shredded

Cream butter, add sugar gradually, beating all the time. Add the well beaten yolks, stir together three times flour, cornstarch and baking powder, add to butter mixture alternately with the milk. Add flavoring then the stiffly beaten whites of eggs. Turn into a buttered 9-inch square pan about two inches deep and cover with the almonds and sprinkle with powdered sugar. Bake in moderate oven (325 degrees F.) 30 minutes. Just as soon as the meringue on cake begins to turn color cover with thick brown paper, as when finished baking the meringue should be a very delicate brown.

Claims World Undernourished

Australian Specialist Thinks More Protective Foods Should Be Produced

The world is undernourished, F. L. McDougall, Australian agricultural specialist, said in a report to the biennial general assembly of the International Institute of Agriculture at Rome.

Many world agricultural problems would be solved, he said, if certain nations would increase their production of "protective foods" instead of concentrating on high wheat yields.

"Satisfactory human diet must contain sufficient quantities of the kinds of food that provide these hitherto obscure elements in nutrition," the Australian said, explaining "the foods particularly valuable in this respect are milk, cheese, butter, fresh fruit and vegetables, eggs, fish and meat."

Coronation Oath

May Be Slightly Changed To Comply With Statute Of Westminster

When the king takes the coronation oath at Westminster Abbey next May 12 he may use a form of words different from that of his predecessors.

It was made known the oath has been slightly altered in order to comply with the provisions of the statute of Westminster, which changed the status of the dominions.

The new wording, evolved after consultation between ecclesiastical and constitutional authorities, will not be revealed until the full program for the coronation is issued. It is understood the coronation service will be shorter than at the coronation of King George V, because of the absence of a queen consort.

Rare Plants In North

New rare plants have been discovered in the Canadian Arctic by Dr. Nicholas Polunin, a British botanical authority, in a comprehensive survey of northern flora made during the eastern Arctic patrol of the Canadian government. Dr. Polunin, two years ago, made a similar study which he extended on the present expedition. He returned to Halifax on the steamship Nasopie.

Well Protected

Spain's \$700,000,000 gold reserve lies in practically impregnable vaults seven stories below the Bank of Spain building in Madrid, enclosed with seven-foot-thick armored steel and concrete.

If You're Told
to "Alkalize"

Try This Remarkable
"Phillips" Way
Thousands are Adopting

On every side today people are being urged to alkalize their stomachs. And thus ease symptoms of "acid indigestion," nausea and stomach upsets.

To gain quick alkalization, just do this: Take two teaspoons of PHILLIPS' MILK OF MAGNESIA 30 minutes after eating. OR—take two Phillips' Milk of Magnesia Tablets, which have the same antacid effect.

Relief comes almost at once—usually in a few minutes. Nausea, "gas"—fullness after eating and "acid indigestion" pains leave. You feel like a new person.

Try this way. You'll be surprised at results. Get either the liquid "Phillips" or the remarkable, new Phillips' Milk of Magnesia Tablets. Delightful to take and easy to carry with you. Only 25¢ a box at all drug stores.

ALSO IN TABLET FORM:

Each tiny tablet is the equivalent of a teaspoonful of genuine Phillips' Milk of Magnesia.

PHILLIPS' MILK OF MAGNESIA

British Croesues

Government Still Checking Up On Estate Left By Sir John Ellerman

For three years, a small army of government clerks have been checking up the estate left by Sir John Ellerman, little-known "richest man in England's history"—and they are still hard at it.

His Majesty's government can well afford the clerks' time. It expects to collect nearly £200,000,000 (about \$100,000,000), or 50 per cent. of the huge fortune, which keeps on growing.

Sir John, ship-owner, industrialist and real estate magnate, died in 1933 at the age of 71. His estate was then valued at £17,233,977 (about \$86,119,855) "as far as can be ascertained." But only recently it was revalued at £36,684,994 (about \$183,424,970), and even at that figure, additional property including large foreign interests was not included.

Now investigators have discovered more and more holdings. The final figure is expected to be about £50,000,000, or approximately \$200,000,000. Exactly half of that goes to the government.

The British croesues left the bulk of his fortune to his son, the present Sir John Ellerman, now 27.

Already £14,600,000 has been turned over to the treasury in death duties—by far the largest sum the inland revenue department ever received from one estate. In addition, it is estimated that during his lifetime Sir John paid at least £20,000,000 in income tax and super-tax.

Fall Wheat Sown

At Spring Cones in Southern Alberta considerable fall wheat and rye has been sown in the hope of getting crops next year. Rains have revived the grass on the Blood reserve and some hay has been cut from irrigated lands. Grain yields in the district were ten bushels for wheat and twenty for oats.

The zoetrope, a toy revolving cylinder with slits through which a series of pictures were seen in apparent motion, was invented 30 years before the motion picture.

In The Cause Of Peace

Delegate Says There Is A Momentum Behind The Peace Movement

Mrs. John Grieve, League of Nations Society delegate to the recent peace conference at Brussels, following her return to Toronto, said that the prevailing mood of the conference was "neither optimism nor dismay, but one of determination."

People in Europe, she said, appeared to believe war was inevitable but that, the danger was not immediate.

"The idea of the congress was to bring together on a limited platform as many people as possible, to establish a central bureau in each country to effect this platform, and an international bureau to co-ordinate the work in all countries," she said.

"There is a tremendous momentum behind the peace movement if it can only be harnessed. It will not be known how successful the congress was till we see how seriously the delegates set to work when they return."

Playing Chess By Letter

Principals In Minnesota And South Africa Engaged In Slow Game

The world's slowest chess game is in progress in Blue Earth, Minnesota. One player is in Blue Earth and the other in South Africa. The players indicate their moves by letters to each other. As it takes 30 days for a letter to travel from one player to the other, the game is likely to continue for another five years.

The principals in the match are John Brooks, president of the Johannesburg Chess Club, and Don Fitch, of Blue Earth. "It is a very thrilling game," Fitch declares. "Sometimes I sit up half the night deciding on the next play after I hear from Brooks. He's a pretty tough opponent, but he can't beat me before 1940, anyhow."

A motion picture theatre has just been opened in Santiago, Chile, which is air conditioned and both earthquake and fireproof.

GROUND GRIP TIRES
take you through

Ground Grips are the greatest tires ever built for traction. The patented self-cleaning, super-traction tread makes its own road through mud, snow, sand and gravel. Thousands of doctors, salesmen, farmers and truck operators who travel over all kinds of roads in all types of weather enthusiastically report Ground Grip tires their greatest driving aid.

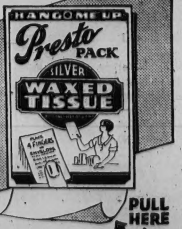

Ground Grip tires cost no more than standard types of tires. Have your local Firestone Dealer equip your car or truck NOW.

Seventy Varieties Of Maple

Sugar In Commercial Quantities
Only Obtained From One

There are over 70 varieties of maple trees in the world, but only one of the seventy yields sugar in commercial quantities. This is the famous hard or sugar maple which grows in Canada from the Atlantic Ocean to the Lake of the Woods and in the eastern United States. Its beautiful leaf is the national emblem of the Dominion. About 95 per cent. of the maple products' industry in Canada is at present confined to the St. Lawrence River valley.

Flowers of the "Dutchman's pipe" catch pollen-laden insects and refuse to release them until the blossoms have been pollinated.

Thou Shalt
Not Love

— A NOVEL BY —
GEORGIA GRAIG

CHAPTER VII.—Continued

"What was there to do? I tossed a twenty-dollar bill to one of the attendants to see that he got into his car all right. Such caution was not worth selling my hands over."

Pain tore at Starr's heart. His words were properly chosen, but there was something in his careless tone. What he really meant, it was quite plain to her, was that her honor was not worth selling his hands over! A twenty-dollar bill was nothing. Money smoothed his play-boy path wherever he went. An icy hand clutched at Starr's heart, for it was quite as plain to her that he expected his money to win her. In his own way, on his own terms.

Not for the world, though, would she have let him know she realized that. With a flash of her old bravado, she said flippantly:

"And what does that make me?"

Lance's black eyebrows lifted slightly, and he smiled, with a touch of indulgence.

"I hope it makes me your cavalier for the evening, at least," he said, his voice low, almost a whisper. There was a wealth of meaning in his tone which lent his innocent words a deep significance.

Starr turned away from him with a wave of revulsion. Lance Marlowe was quick-eyed; he was trained to the nuances of feminine emotion. He saw his mistake instantly, and his face darkened.

"I should have known better than to use my usual line on you." There was a touch of insolence intoned. Then he shrugged. "I suppose you'll not be wanting to stay any longer—now—at least I can see you to your car, get your wrap for you, or something?"

Starr cried out almost in a panic. "No—no! Nothing! And I have no intention of running away from—oh, any or you!"

But in spite of her defy, suddenly she was fleeing from him. Anywhere to get away. She had said she meant to stay, but all she really wanted to do was to get away forever from this mad, glittering playtime world. It was not in any way what she had expected it would be. Living out her span in drab obscurity was better—a million times—than this!

Half blinded with the tears she was forcing back as she dashed up the balcony steps, she collided with something that stopped her flight. The strong, vital body of a man. A second her face was buried against the front of a starched shirt. She looked up, dazed.

"Starr! For Heaven's sake! Where do you think you're going? Out to beat some kind of a record?"

Michael's hands were gripping her shoulders. Michael's face beamed down at her. He was so full of his own satisfaction that he did not even notice her agitation. He could take things lightly like that, make humorous remarks, laugh when her heart was breaking!

Again she was conscious of the overpowering attraction of his presence, like an intoxicant in her blood, that sent it singing along through every vein in her body. She fought against it desperately. Why must it be like this?

Michael was so pleased that he almost hugged her. Yet his pleasure was simply that of a man who has just put over a good business deal. It was all in the head, not the heart. He grinned, standing off to look at her with his head cocked a little to one side.

"Pretty swell!" he commented. "You are marvelous, Starr—superb! Everything is going just as we planned; better than we planned. I'll be the talk of the town to-morrow."

The casual cocksureness of the man! As long as his own end was served, what did he care the price a woman paid? But how could she know he was congratulating himself on his own perspicacity—and his luck!—at picking up a girl who hung out in La Luna and having her turn out like this, as if she had been used to people of this kind all her life? Or perhaps it was her training for her "racket" that helped?

Starr's resentment raged again. Confronted strangely with her storming emotions. She clenched her fists until the scarlet nails dug into her palms. A cold, brittle voice came through her painted lips.

"I can't go through with it, Michael."

His jaw dropped, and he stared. "Can't go through with it?" he echoed unbelievably. "But why?"

To Ease a
Headache Fast

Get Real Quick-Acting,
Quick-Dissolving
"ASPIRIN"

For QUICK Relief
If you suffer from headaches what you want is quick relief.

"Aspirin" tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly the touch moisture. (Note illustration above.)

Hence—when you take an "Aspirin" tablet, it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly—headaches, neuralgia and neuralgic pains start easing almost at once.

"Aspirin" tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited, of Windsor, Ontario. Look for the name Bayer in the form of a cross on every tablet.

Try it. You'll say it's marvelous.

What's the matter? Has anything happened?

Suddenly it was he who was agitated. He saw his money-making scheme falling through because of the whim of a girl he should have known better than to have trusted in the first place. His hands tightened their grip on her shoulders, sending shooting sparks of fire through her, soft flesh.

He said rapidly: "What's wrong, Starr? Haven't I done enough for you? Isn't the salary high enough? I'll raise it!"

Money! Was that all that men thought about? And this particular one probably thought she was trying to hold him up, now that he had confessed she was making good, better than he had hoped she would.

A deep, trembling sigh shook her whole body, only to be repressed. She realized only too well how hopeless it was to try to explain, to try to make him understand what this night had done to her. She had too plain a memory of the one or two occasions when she tentatively had tried to make him understand that she was not the kind of girl one usually picked up in place like La Luna. He had not believed her. She had known that. All he had seen in her was a good little actress who could carry out his plans, and he was thinking his lucky stars that some time or other she had known what was called "the better things of life."

She writhed before his taunt, searching face. Dusky lashes shadowed against her ivory cheeks, hiding her passion-filled eyes from him. "Money!" she repeated dully. "That's not the reason. I've changed my mind, that's all!"

"All!" A long moment he paused. When he spoke again a harsh note had crept into his voice. A note of contempt.

"I didn't know you were a quitter, Starr."

Her vivid face flashed up to meet his gaze. What he said stung her more than all that had gone before.

"So that's what you think of me?" "What else do you expect me to think?" He shrugged, and a queer little quirk came around the corners of his mouth. "Or is it, perhaps, that Lance Marlowe has offered you a more attractive proposition? He would!"

She glared at him, breathless in her instantaneous raging fury. (To Be Continued)

"And what is your name, my little man?"

"Henry, sir."

"Why did you parents name you Henry?"

"I'm the eighth, sir!"

"Why has your husband been summoned?"

"I'm not quite sure, but I think a policeman held up his hand and Jack put his foot on the exasperator!"

Opening His First Parliament

King Edward Will Be Speaking To
Provided House

King Edward will open the first parliament of his reign at Westminster November 3. He will drive in full state from Buckingham Palace to the House of Lords, and will read his speech from the throne to a chamber crowded with peers and peeresses and with the "Faithful Commons" in attendance.

The King will not wear a crown. The crown and the sword of state will be taken from St. James' Palace to the House of Lords in a state landau, guarded by an escort of life guards, and the cap of maintenance, the other emblem of royal power, will be carried in front of the King. Not until he has been crowned at Westminster Abbey in May will King Edward wear his crown.

If he follows the example of his father, who also opened his first parliament some time before his coronation, the King will wear full-dress naval uniform for his drive from the palace, and will don heavy robes of crimson velvet edged with gold for the ceremony in the Lords, putting on the cocked hat of an admiral when he comes to read the speech from the throne.

While he is at the House of Lords the King will carry out another ceremony of great constitutional importance. This is the signing of the royal declaration of Protestant faith, which the sovereign must make either at the opening of his first parliament or at his coronation, whichever comes first.

Another Boat Salvaged

German Battleship Taken From
Scapa Flow To Shipbreaking Yard

The former German battleship Kaiserin, salvaged from the sea bed at Scapa Flow, completed her journey from the Orkneys to the ship-breaking yard at Rosyth Dockyard.

She carried a crew of 14 men, who were accommodated in huts erected on the keel, and whose duties were to attend to the pumps which kept the hulk afloat.

Like the other vessels of the scuttled fleet which have been raised and taken to Rosyth, the Kaiserin made the passage upside down, towed by three Dutch tugs—Edinburgh Scotsman.

VICKS VATRO-NOL

Little Helps For This Week

The Lord is nigh unto all them
that call upon Him, to all that call
upon Him in truth. Psalm 145:18.

Be Thou O Rock of Ages nigh;
So shall each murmuring thought
be gone.

And grief and care and fear
shall fly.

As clouds before the mid-day
sun.

Take courage and turn your
troubles which are without remedy
into material for spiritual progress.
Often turn to the Lord who is watch-
ing you amid your labors and dis-
tractions. He sends you help and
pleases your afflictions. This thought
should enable you to bear your
troubles patiently and gently, for
love of Him who only allows you to
be tried for your own good. Raise
your heart constantly to God, seek
His aid, and let the foundation stone
of your consolation be your hap-
piness in being His. All vexations and
anxieties will be comparatively
unimportant while you know you
have a Friend who is such a Refuge.

Tribute To Boy Scouts

In the course of a tribute to the
effectiveness of "boy scout training
during a discussion of juvenile delin-
quency at the world conference of
Rotarians at Atlantic City, Dr. Amos
O. Squires of Ossining, N.Y., stated
statistics showed only three out
of every 30,000 criminals had ever
been boy scouts.

Motorists who insist on their rights
often get them. Only they're spelled
"r-i-t-e-s", and slow music goes with
them.

From the peaks of North Sweden
the sun can be seen continuously for
six weeks.

A Royal Privilege

Toronto Witness Allowed To Affirm
Rather Than Take Oath

Rev. D. I. Elison took advantage
of a royal privilege granted to Pres-
byterians 300 years ago when he ap-
peared in women's court at Toronto.

The minister expressed a wish to
affirm rather than take an oath on
the Bible in a bigamy case in which
he was called as a witness.

"A Presbyterian and not swear on
the Bible!" exclaimed Magistrate
Cowan.

Told of the royal privilege, Mr.
Cowan said he had been a Presby-
terian all his life and had never
heard of it. He allowed the witness
to affirm his intention of telling the
truth.

Bank of England notes in circula-
tion have now reached a total of
\$2,273,945,000.

The quality of radio
reception largely depends
on your batteries. Ask for
Eveready—and be sure!

IT IS AIR CELL that has made battery radio so immensely
popular these days. Air Cell—the modern battery—does away
with the necessity of re-charging.

Air Cell maintains itself by simply breathing air. It sounds like a
miracle and it is indeed one of Science's great achievements. Best
of all, peak power level is maintained for 1000 playing hours. No dwindling
of power as in other batteries.

And Layerbilt! Well—everyone knows it is the super "B" battery.
It is built in tightly-packed layers and gives far longer life than the
old-fashioned round-cell types. Thus you don't have to change your
"B" battery as often as formerly.

This year, Eveready has eliminated the terminal posts and given you
one socket—this means only one connection for each "B" battery.

For perfect team work—Air Cell plus Layerbilt.

THE WORLD OF WHEAT

By H. G. L. Strange, Director
"Crop Testing Plant."

The wealth, welfare and prosperity of farmers, and indeed of all of us, in Western Canada depends mainly upon the sale each year to foreign countries of large quantities of Canadian wheat at satisfactory prices.

Between 200 and 300 million bushels a year, it seems to me, will have to be exported if a reasonable standard of living for our producers and other people is to be assured.

Our large annual sales in the past have depended upon the buyers in no less than 72 different countries demanding on "wanting" Canadian wheat. Our problem, then, can be stated very simply. It is that somehow we must induce the buyers of 72 countries to "want" between 200 and 300 million bushels of Canadian wheat each year, and to pay a reasonable price for it. Can this be done? Yes, I at least believe it can, provided for one thing that we maintain, and if possible increase, the present margin of quality or "strength" that Canadian wheat enjoys over the "strength" of all other wheats in the world. But we must remember that meanwhile other countries are steadily improving the quality of their own native wheats. Canada, therefore, will undoubtedly have to increase the efforts she is now making in order even to maintain her present superiority in wheat quality.

The recent substantial increase in the price of wheat has been brought about by the complete disappearance of the "burdensome" world surplus that has tended so to depress world price since 1930.

Rainfall that may occur in Australia and the Argentine in the next few weeks is the most important factor now governing world price. If a abundant rains soon occur the world price of wheat will probably fall. If generous rains do not soon fall, however, the price will probably rise still further. The Buenos Aires "Futures" market for the moment is an excellent price barometer.

Viking District Lambs
Top Price at Edmonton

(From the Viking News)
Two lambs exhibited at the annual fall sheep and swine sale at Edmonton last week by Miss Alice Swift of Viking district, were awarded the championship ribbon at the show and also secured the highest price paid at the fall fair. These lambs brought \$90 per 100 lbs. and were bought by the Canada Packers. This speaks well for the class of stock raised in this district. These lambs were shown at the Viking school fair and the judge at that time stated that they were the best he had seen at any fair.

When horses are loaded crosswise into an open motor truck, they are safer if their heads are towards the outside of the road. Reports tell of horses seriously injured by passing traffic—often another truck—when the horses had their heads towards the centre of the road. The danger is greatest at night.

TREES AVAILABLE
FOR FARMERS

With reference to the all-important function of tree planting in Alberta, was learned in an interview given today by the Hon. C. G. Ross, Minister of Lands and Mines, that certain types of trees were available to farmers for transplanting and could be secured for this purpose on application to the Forestry Division of the Department.

The principal object in view, Mr. Ross stated, was to provide transplants for replacement of less valuable species in shelter-belt and wind-breaks, to introduce a more desirable product than the native variety found in the bluffs now in existence and to give protection to such products by planting them in stands of trees already established so as to provide necessary shade for the new species to ensure a healthy and permanent growth.

Available for planting in the spring of 1937, the Minister continued, will be limited quantities of white spruce, jack pine, green ash, and elm. There will also be a small number of bur oak and Siberian larch with which the Forest Service has been experimenting successfully and of which a few may be given out for trial. In addition to these a large number of lodgepole pine and Scotch pine, trees possessing healthy root systems, are available for distribution. These trees are recommended for planting in this province.

To avoid any possible confusion, application forms should be secured from the Director of Forestry, Department of Lands and Mines, Edmonton, the minister concluded. Forms properly filled out as to quantity and species required should, he added, be sent in to the Department before the end of the present year for trees required for planting next spring.

QUINTE CUIPS

Quite a number from here visited Kinsella Friday night. All report an excellent supper and a fine program.

Mr. C. Brickman and Mrs. H. L. Cooper are visiting at Lacombe for a few days.

Mr. and Mrs. G. T. Jones and Mr. J. Jones spent Sunday with Mr. and Mrs. D. Draper.

We are pleased to see Mr. J. Heslop back on the job after being away several weeks.

Mr. E. Evans was a business visitor in the city Friday.

Miss Irene Ross spent the weekend at Kinsella.

The Quinte Crescent Club are holding a rag doll box social at Quinte on October 28th. Good music. Come and have a good time.

Mrs. J. Heslop motored to Edmonton Friday, returning Saturday.

Don't forget the Quinte chicken supper, October 30th, from 6 to 8 p.m.

Miss W. Jones of Veroville visited Mrs. D. Draper over the weekend.

Mr. and Mrs. T. A. Cox motored to Lloydminster Sunday.

Cars Kill More
Than Factories

(Mail and Empire)

One of the far-reaching consequences of motor fatalities on streets and highways is pointed out by the Industrial Accidents Prevention Association. The records of the Department of Highways of Ontario show that, during the first six months of this year, fatal accidents involving collisions between motor vehicles increased by 28.6% in face of a general decrease in fatal accidents of 13.1%. The records of the Workmen's Compensation Board, over a period of years, indicate a downward trend in the number of machine accidents that result fatally, while there is now an upward tendency in fatal accidents, involving compensation on the streets and highways. So far as workmen's compensation in Ontario is concerned, it is evident that there are more people killed in vehicle accidents than are killed in machine accidents, which may ultimately result in a special rate being levied by the Workmen's Compensation Board against that part of the payroll represented by drivers of vehicles under the workmen's compensation.

The New
University Head

The appointment of Dr. W. A. R. Kerr, dean of the faculty of Arts and Sciences, to the position of president of the University of Alberta, seems to have been a universal satisfactory choice and premier Aberhart and his cabinet have been highly commended for this wise selection by press and public alike. Even the students at the university are jubilant over the choice and that should make it unanimous. The new president has an intimate knowledge of university details, having been on the staff since 1909, so that's one appointment we can give the premier credit for good sound judgment.

Alberta Junior Wheat
Club Winners

The following are winners of the highest scores in the Junior Wheat clubs in Loughheed and adjoining districts and the standing of club. The total number recorded is 53.

H. Loughheed, Henry Volgart; 20, Irma, Murray Walker; 26, Provost, Glen Chisholm; 33, Jarrow, John Rawluk.—Wheat Pool Bulletin.

W. C. T. U. NOTES

Those who have listened in to the daily Susan Agar program over CFR N will be interested in a little incident that developed quite recently.

It will be recalled that the "Chateau of the Air," whose pleasing voice brought recipes into our homes on this program not infrequently advocated the use of brandy in sauce, of sherry cubes in afternoon tea, etc., all of which was objectionable to those who have learned from the investigation researches of science that alcoholics are poisonous and therefore debilitating instead of invigorating as claimed.

It developed that an Edmonton woman recently interviewed the manager of the Gillespie Grain Co., which company sponsors the Susan Agar program, and remonstrated against the advocacy of alcoholics in foods. The manager very courteously agreed to consult the Chatelaine, with the result that, as he stated, "we cater to the public and these recipes, being objectionable, must be stopped."

Here's a lesson for those of little faith whose weak fear that moral strength lies only in multiplicity of numbers leads them to hesitate in undertaking any unpopular task for good purpose, lest fulfillment come only when success is assured by the popularity of the measure.

In the above instance the result obtained was due to the stand taken by but one woman.—Signed, Nancy O. Parke.

NOTICE

TO WHOM IT MAY CONCERN:
My wife, Margaret Close Edmonds, has left my bed and board without just cause or excuse and all persons are hereby notified that I will not be responsible for any debts contracted by her after this date.

LYDD EDMONDS,
7-21p N.T. Jarrow, Alberta.

LOUGHEED NEWS ITEMS

Max Kirkman is back in town again. He has been working at Lacombe in a garage. While cleaning the motor in a car with gasoline he touched a live wire with his cleaning knife, igniting the gasoline. Max was burned on the hands and left leg. Kirk walks around like an old man now. We're all hoping that he'll soon be o.k.

'Mac' MacDonnell was a Loughheed visitor over the holiday. He returned to Munson on Tuesday where he is working.

Miss Annabelle Crawford and several friends were guests at the A. P. Olsen home on Monday. Miss Crawford is Mrs. Olsen's sister.

Mr. and Mrs. Harold McDougall went to Edmonton on Sunday morning and visited friends for a couple of days.

Mel McCune was a dinner guest at the Grant home in Killam on Monday. Art Reeves and Mrs. Reeves, of Provost, spent Thanksgiving with Art's parents, Mr. and Mrs. J. G. Reeves.

Mrs. Siebert and Autumn returned home to Rothen on Sunday morning after visiting at the home of her parents, Mr. and Mrs. R. E. Coleman, for two weeks.

Ray McCracken, the big milk farmer of the district, lost one of his prize minks on Saturday night. According to the latest bulletin it's still at large.

Lorraine Wainsley, Winnie McCune, Barbara Whyte, 'Mac' MacDonnell, 'Scotty' Jack and Gordon McGavin took in the hop at Killam on Monday evening.

Miss Bessie Caudwell spent Sunday and Thanksgiving at the home of her parents, Mr. and Mrs. J. Caudwell.

Wes. Pedlar accompanied by Douglas MacDonnell journeyed to Edmonton on Sunday morning.

A THANKSGIVING HYMN

(By Nancy O. Parke)
For healthful breeze, gay colored flowers,
That beautify this land of ours;
For cooling draught and garnered grain;
For gardens grown in sun and rain;
For school and home and loved ones near;
For food and shelter thru the year—
We're very glad and thankful.
For love and beauty, east and west;
For discipline of sorrow blest;
For whatsoever may betide
That renders us more purified;
For loving labor we can do
To lead us unto heights more true—
Our chastened hearts grow thankful.

For each and every day of life,
With heart to meet the surging strife;
For rest when evensong may fall;
For peace when bitterness enthrall;
For all of good that we can see;
For glimpse of infinite purity—
We are sincerely thankful.

For morning glory, evening rest;
For mid-day pleasuring and feast;
For children's sweet assembled near;
For dawn of season's growth of cheer;
For friendship dear; for love and hope;
Our hearts are truly thankful.

For faith that what is good is real;
For heart to build toward an ideal;
For every uplifting desire;
For inspiration, leading higher;
For more than tongue or pen reveals;
For more than even soul reveals—
We're reverently thankful.

FOR SALE—about 20 head pure-bred Hereford Cows and some yearling Herefords. All are in good shape and are first class breeding stock. Anyone wishing a start in Herefords would do well to get in touch with A. C. WALMSLEY, Hardisty, Alta., Phone R1515. 16-4tp

Viking News Items

Allan Harper of Jarrow, wheat pool agent at that point, was a business caller in town on Tuesday.

Miss Mabel Keats returned last Friday from a two months visit with friends and relatives in England. She reports having had a most enjoyable time.

We understand that Them Kjar has sold his farm to a party from Holden and will move to town to reside in the residence now occupied by Mr. and Mrs. W. J. Brown.

Geo. H. Van Allen, K.C., M.L.A., of Edmonton, well known locally, has been very ill at the Royal Alexandra hospital in the city. At this writing he is reported as being slightly improved.

The Viking Legion branch of the B.E.S.L. are sponsoring a public memorial service in the Elks' hall on Wednesday, November 11th, service to commence at 11 a.m. In the evening a banquet will be held in the hall when returned men and their wives will meet for a social evening similar to the one held last year.

Farmers in the north central section of Alberta have been harvesting the biggest money crop since 1929 and more than \$40,000,000 is estimated to be the wealth it will have brought to the province this year. The price of wheat was the highest in six years and the average yield 15 bushels to the acre.
